

## ULV Sprayer

ULV series of ultra-low volume sprayers Disinfectants for the new generation high-performance devices, it has low noise, high efficiency, long-distance, fog particles small, fault less, easy maintenance features, supporting high-quality motor, energy-saving and durable .

Medicine chest volume 6 liters, a large area can be realized Disinfectants operations; as hotels, restaurants, hospitals, schools, theaters, military barracks, farms and other places of Health Disinfectants, health and disease prevention the preferred model. Machine made of high-quality engineering plastics, high strength, anti-aging, long service life.

## Specifications

- Tank Capacity: 6.0 liters
- Cup Capacity: 150 ml
- Spray volume of 0-400 ml / min (adjustable)
- 0-50-micron droplet size (adjustable)
- Wind-range 8-10m
- Hose Length: 350 mm
- Spray angle: 15 ~ 45 °
- Rated Voltage: 220V/Hz
- Power Consumption: 800W
- Working Noise: 80dB
- Host speed: 35000 r / min
- Net mass: about 3.0 kg (including cable)
